

PELICAN RADIO ROAD SAFETY PROJECT **A GUIDE FOR TEACHERS, PARENTS AND** **GUARDIANS**

Hello! We are the **Pelican Radio Collective**. We are a team of students from the **Royal Central School of Speech and Drama** that have been working alongside road safety officers from **Barnet Council** to create a series of educational games and audio dramas.

Your child/students will play through a series of four **interactive games** that will simulate road safety decisions, designed to teach them practical **road safety information** that they can take into the real world! Road safety skills are vital for young people's safety and confidence and we are excited to present our series, that makes learning those skills engaging and fun.

Each game will start with a piece of **audio drama** to set the scene and finish with an **activity** designed to encourage the child to relate the road safety information gained to their own life. The activities only require pens and paper. We recommend listening to the audio with headphones if possible, and playing on a larger device such as a laptop or tablet, as opposed to a mobile. We have also provided transcripts of the audio dramas for those that would rather engage with text.

If you would like to share with us the work that your child / student has created throughout this project, you can send those to us via **road.safety@barnet.gov.uk**. We would love to see what is created!

CONTENT WARNINGS

Please find a list of content to consider in each episode below. This list includes any themes that may be potentially upsetting.
